

PARTNER TOOLKIT

Dear Partner,

Thank you for taking part in Desmoid Tumor Awareness Month (DTAM) this September! The Desmoid Tumor Research Foundation team values your partnership during this campaign and all year round. We hope this Partner Toolkit will make supporting DTAM as easy as possible.

Awareness is a fundamental pillar of progress in advancing rare disease research. Your amplification of DTAM to your followers, networks, and beyond, will directly and positively impact the future of desmoid tumor patients worldwide.

Please feel free to reach out to us at info@dtrf.org with any questions, or to let us know any unique ways you are celebrating this year.

*In gratitude,
The DTRF Team*

Desmoid tumor patients are used to living with the "unknown" that comes with this #raredisease diagnosis. However, progress is underway. The FDA is currently reviewing @SpringWorks Therapeutics (tag) New Drug Application for the first-ever FDA-approved therapy for desmoid tumors. This exciting news along with additional promising clinical trials are providing much-needed hope to desmoid tumor patients worldwide.
